Features and Advantages

- DC Waterproof – **IP68**.
AC Waterproof – **IP65**.
- Huge 4 cm X 6 cm display providing full programming visibility on one screen.
- Safety- controller identifies battery failure and prevents, in advance, valve opening.
- DC controller runs up to 5 valves simultaneously.
- AC runs up to 3 valves simultaneously.
- Nonvolatile memory: All programs are saved in case of battery failure or replacement. Date and time are kept for 6 minutes.
- Sensor input (not including program c).
- Water budget 10% - 200% to each program.
- Rain delay up to 99 days.
- Set active days;
 - Calendar days- weekly,
 - Interval days- cycles up to 21 days.
 - Non-irrigation days can be defined.
 - Interval days- Even/Odd days
 - Option to irrigate only on even/odd days of the month.
- Yearly Calendar.
- Ideal for controlling Netafim Aquanet AC/DC valves or other 24V AC latching solenoid valves.
- CE listed.
